## THE BLAIRMORE PHARMACY

Gordon Steves, Prop. Phone 110 Blaimore, Alberta

### BLAIRMORE PUBLIC LIBRARY

New books placed on the shelves this week are:

"In Search of Scotland," by Morton; "Wilfred Grenfell," by Basil Mathews; "Captain Courageous," by Kipling; "Alias Ben Alibi," by Irvin S. Cobb; "Stolen Idols," by Oppenheim; "Smoky," by Will James; "With Rifle and Kukrie," by G. Brown.

Library hours are, Tuesdays, Thursdays and Saturdays from 7 to 9 p.m. Residents of Frank, Bellevue, Hillcrest and Coleman may enjoy the privileges of the library for a fee of \$2.00 for twelve months membership. Four books may be taken out at one time, two of which may be fiction.

The marriage took place here on July the 9th, of Edward Mark Macdonald to Miss Eleanor Jane Macdonald, both of Bellevue. The ceremony was performed by Rev. J. W. Smith, B.D.

### BLAIRMORE VACATION SCHOOL

A happy band of children are gathered at the school this year, which is filled to capacity. This is very gratifying to the teachers, showing as it does that their self-sacrificing efforts are appreciated by parents and children alike.

Arrangements are being made for an exhibition of work done and a demonstration by the children on Friday night in the United church at 7.30 o'clock. All parents and friends are invited to attend. The chair will be taken by Mr. S. G. Bannan.

Admission is free but a generous offering is urgently needed to finance the school.

Mr. and Mrs. John Gray left last week for Coleman, Alberta, where they will spend some time visiting with friends and relatives. Mr. Gray is station agent at Westville.—New Glasgow Free Lance.

## SUMMER GOODS

**POLO SHIRTS** are the popular garments today. We have assorted shades. Cotton Mesh, long sleeves, at \$1.15. Short Sleeves, Silk Rayon and non-run Crepe finish in white and blue, from \$1.25 to \$2.50.

### ELKS' CARNIVAL SUCCESSFUL

The Elks' annual carnival, held at the arena on Thursday, Friday and Saturday nights last, was quite successful, despite the prevailing depression. The attendance on Saturday night constituted a record, and general merriment and excitement appeared to prevail. The booths, and particularly the dance pavilion, were well patronized.

The grand prize, a Chevrolet coach, was won by J. E. Gillis, B.A., a past exalted ruler of the local lodge of Elks, with ticket No. 3539. The nightly prizes, 52-piece dinner sets, were won as follows: July 9th, Mrs. M. Eysacker, Burn's, No. 3428; July 10th, Fred Antioch, Coleman, No. 1602; July 11th, D. Bouthillier, Cowley, No. 4315.

### CASTLE RIVER CLUB

#### TO HOLD SPORTS

The Castle River Club, of which Ken McDowell is secretary, has decided to hold their annual picnic and sports on Friday, July the 31st, on the Municipal Park, located immediately to the east of the South Fork steel bridge on the Burnis to Beaver Mines road.

The programme will start at 11 a.m., with a softball contest between Beaver Mines and Blaimore. Other features of the day will be a bucking contest, half-mile horse race, horse jumping, horse pulling, boys' saddle-horse race, men's, women's and children's foot races, horse-shoe pitching and various contests for children, for all of which good prizes are offered. There will also be a tug-of-war between teams composed of miners and farmers; and a big event of the day will be the dance to be held in the Beaver Mines hall at night.

A right jolly good time is expected all who can make it convenient to attend.

Reports from the Dominion Bureau of Statistics indicate that the first step in taking the census of merchandising and service establishments has been successful. The census enumerators have secured the names and addresses of merchants in every section of the Dominion. In August the next step will be taken, when a schedule will be mailed to each address taken by enumerator, the schedule varying with the type and size of business. The widespread interest, which is being taken in the merchandising census, will insure the prompt and accurate completion and return of the schedules. All types and sizes of merchandising and service establishments are realizing the importance and value of obtaining a comprehensive picture of distribution activities in Canada.

Much interest is being centred in the weekly tours organized by the Northern Pacific and Great Northern Railways. The tours are routed from Chicago, via the Crows' Nest Pass, to Banff. Parties originating in Chicago travel to Glacier Park, thence by bus to Many Glaciers and Waterton Lakes. From there the tour continues by bus, the first stop-over for night being in Blaimore on Friday nights during July and August. Radium Springs is the next stop, and the tour finishes at Banff on Sunday of each week, from which point the parties are routed via the C.P.R. and Soo lines to Chicago, or the journey may be continued westward to the Pacific coast by rail. There are several other similar tours now in operation through this district.

The marriage took place at the home of Mrs. John Albert Price, Coleman, on Monday of last week, of her second daughter, Gladys, to John Matson Ingils Thompson, of Corbin, B.C., Rev. A. E. Larke officiating. They will reside in Corbin, where Mr. Thompson is connected with the office staff of the Corbin Coal Company.

### BOY SCOUTS OF PASS TOWNS WILL CAMP AT LEE LAKE

A meeting of the general committee of the Boy Scouts associations in the Pass towns was held in the office of J. E. Gillis, Blaimore, on Monday evening.

President Westrup, of Hillcrest, and Treasurer Gills reported having made arrangements for the camp equipment from military stores in Calgary, and Geo. Moffat reported on negotiations for supplies and provisions.

The Scouts from Michel, Coleman, Blaimore, Hillcrest and Bellevue will assemble at Burnis on Monday, July 20th, and time for marching off for camp at Lee Lake is 9.30 a.m. There they will assist in pitching tents and laying out the camp. Scoutmaster, the Rev. Mr. McMorine, of Michel, will be camp commandant.

Camp orders will be posted daily. Coleman and Blaimore boys intending to go, who have not already notified their scoutmaster, should do so at once.

On Sunday, July 26th, church parade will be held in the afternoon, which will be open to visitors.

It is expected that the provincial commissioner of the Boy Scouts will visit the camp for a day or two.

The camp will be from July 20th to 30th, and it is the first time in which a camp has been held for the combined troops. It is anticipated that it will prove a very useful and enjoyable camp for the boys, and at certain hours in the afternoon visitors will be permitted.

### MRS. MCKINNEY DIES

#### AT CLARESHOLM

Mrs. Louise C. McKinney, wife of James McKinney, died at Clareholm on Friday morning, following a brief illness, at the age of sixty-three.

The late Mrs. McKinney was a dominant known character in her connection with the W. C. T. U. and other welfare movements. She had just returned from Toronto, where as acting president of the Dominion W. C. T. U. organization, she was the official hostess to the world's convention held in that city, with over 1500 delegates in attendance. For more than twenty-five years, Mrs. McKinney served as president of the Clareholm Union, and from 1908 had been president of the Provincial Union.

In the provincial elections of 1917, Mrs. McKinney was elected to the Alberta legislature, which event distinguished her and the cause of women in general in that she was the first woman in the British Empire to take a seat in parliament. It was in commemoration of this event that the women's organizations of the province sought by public contribution to have her portrait painted and hung in the parliament buildings at Edmonton. This painting was partially completed by the artist, Mr. Forster, when Mrs. McKinney was in Toronto last month.

Mrs. McKinney was born in 1868 at Frankville, Ontario, the daughter of Mr. and Mrs. Richard Crummy. She was educated at the Athens high school and at the Ottawa normal school. She taught school in her early life in North Dakota, where she and her husband met. They were married thirty-five years last March in Ottawa. In the family there were two sisters and five brothers, one being dead.

The remains were laid to rest at Clareholm on Monday afternoon.

The Boy Scouts, camped at Lee Lake, extend a hearty invitation to any member of the Elks' Lodge, their sponsors, to visit them during the camp.

Miss Ruby Steeves, of Calgary, is down on a visit to her cousins, the Misses Madden, at Lundbreck, and here brother Gordon here.

## WORLD HAPPENINGS BRIEFLY TOLD

Displays of 269 firms were shown in the advertising and packing section of this year's fair at Leipzig, Germany.

The London Daily Herald says that Amy Johnson, British aviatrix who made a solo flight to Australia, is now preparing for a trip across Europe and Asia to Tokyo.

Feminist leaders of the world, after a two-days' meeting, agreed on a report to assembly of the League of Nations demanding complete equality for men and women in the matter of nationality.

Mrs. C. M. Strong, affectionately known to thousands of Canadian troops overseas during the Great War, as "mother" of the 44th Battalion, died at her home in Winnipeg recently.

His first visit to civilization was too much for Otto Knudsen, Eskimo hunter of the Laue Koch Arctic Expedition, who became violently demented when he saw his first movie at Thorshavn, Faroe Island.

Among scientists who have been awarded long-term grants for medical research, by the trustees of the Banting Research Foundation, is Samuel Weinstein, University of Saskatchewan.

From his colleagues in the cabinet, Rt. Hon. R. B. Bennett, prime minister, was the recipient of a beautiful set of antique silver, entire dishes. The gift was in recognition of his 61st birthday.

In front of the Australian Commonwealth building at Canberra was held shortly erected a 200 foot flag pole of Douglas fir, the gift of the province of British Columbia to the Australian people.

Excellent progress is being made in driving the herd of Alaskan reindeer to its new quarters in the Mackenzie River district, Hon. T. G. Murphy, Minister of the Interior, told the House of Commons recently. Latest reports said the herd was about 300 miles from its destination.

### Fruit Land Taken Up

Over 50 acres of orchard and vegetable land were taken up by new settlers in the Southern Okanagan of British Columbia during the past year. Prices ranged from \$80 an acre for raw land to \$750 for improved and bearing orchard. Approximately 25,000 young fruit trees were planted.

### War Hero Dies In Theatre

General Bertrand, national hero for his spirited defence of Liege and for the Yser campaign during the Great War, dropped dead in a theatre at Brussels. He was credited with delaying the Germans for ten days at Liege whilst Marshal Joffre reformed the French army for the defence of Paris.

The youth who claimed that the four kinds of sheep were: white sheep, black sheep, Mary's little lamb, and hydraulic rams, was certainly not a true son of the soil.

"In conclusion, I would plead an extenuating circumstance, the absolute innocence of the accused!"—Sondagness-Strix, Stockholm.

## Conard Week-End Cruises

Something New In The Line Of Ocean Travel

A pioneer steamship company for the past 91 years, the Conard Line came to the front this year with something new in the line of ocean travel: the week-end cruise, a voyage which gives practically everyone who can afford even a short vacation a chance to go to sea and visit a foreign port.

Already thousands have visited Nassau, down near the Tropics of Cancer, more than 900 miles south of New York, and the Islands of Bermuda, 600 miles off the coast of Savannah, and they made the round trip in four days. The better part of a day was spent ashore in sight-seeing, golfing or sea bathing.

The schedule for the summer season calls for week-end cruises to Nova Scotia, with sufficient time to visit the many historic points in the environs of Halifax, the birthplace of Samuel Cunard, founder of the line which bears his name.

The Cunard's week-end cruises are made by the line's express steamers, the "Berengaria," "Aquila," and "Mauretania," among the largest and finest ships in the world.

These liners steam through the sea at a leisurely pace of 16 to 20 knots, so that the voyager may get the full good of the bracing air and the health-giving sunshine.

To the question, "What is done on these week-end cruises?" the answer might properly be: "Everything!" People play the regular deck games and rent new ones of their own; but on the day's run of the ship, as well as upon the horseshoe on deck; they bathe in the indoor pool; they lounge on the deck; they dry themselves by lying prone on the hatch tops or take sun baths in deck chairs; they stroll about in bathing and various kinds of sport suits, the girls displaying many types of wide-legged pajamas; in short, they do very much as they please, and they offend no one by doing so. Also there are lectures, photo plays, dances and night clubs.

Good food plays a large part in the pleasure of the day, and the catering superintendent of the line goes along to make sure that there is no economy practiced on the bill of fare; the dishes are added rather than cut out.

The entire ship is first class for these week-end cruises. There is no forbidding sign anywhere. Passengers are permitted to use all the public rooms and every deck from stem to stern.

These trips make a strong appeal to vacationists who go away for two or three weeks every summer. They give such people a chance to begin or close the vacation period with a sea trip and yet leave enough time for a week or two in the mountains as usual.

An interesting sight is the ceremony of dropping the pilot after passing through Ambrose Channel. This is an incident which lines the rail with observers. The pilot always leaves in a small rowboat, being picked up a hundred or two hundred yards away by the yacht-like steamer.

Soon after passing here all land fades out of sight. The next delight of this kind is catching the first sight of the land to which the ship is steaming. This always reminds the passengers of the thrill which came to Columbus when the first land loomed up in the West Indies.

Returning from a cruise a great crowd moves to the rail to note the arrival of the Sunday ship or in his little rowboat, looking like a chip alongside the huge liner.

At quarantine, off the eastern shore of Staten Island in New York Bay, the port doctor comes aboard and when he clears the ship the customs and immigration men board the steamer from a coast guard cutter and check up on every passenger on the ship, leaving no loop-hole for the stowaway.

This ceremony over, the ship proceeds to her pier, where many friends await the arrival of the tourists. Once on the pier, the baggage is quickly passed and the passengers go home to tell their friends about this new idea in ocean voyaging and to urge them to book at once for a week-end tour on the wide Atlantic.

### Fruit Market In China

Fruit shippers of the Okanagan show much interest in the statement of Col. L. M. Cosgrave, Canadian Government Trade Commissioner at Shanghai, that China offers a large outlet for low grade fruit at an economical price. The subject was brought up at two meetings in Vancouver addressed by Colonel Cosgrave.

### Edmonton a City Of Homes

Eighteen hundred new homes were erected in Edmonton during the last six years, or an average of 300 new dwellings a year, it is pointed out in a special issue of the Edmonton Journal. The original cost of these homes, not including repairs and additions, figures at about \$6,000,000.

## SUNDAY SCHOOL LESSON

JULY 19

### SOCIAL SERVICE IN THE EARLY CHURCH

Golden Text: "He himself said, 'It is more blessed to give than to receive.'"—Acts 20:35.

Lesson: Acts 4:32-35; 6:1-7; 9:36-39; 2 Corinthians 9:1-15.

Devotional Reading: Psalm 112:5-10.

Explanations and Comments

Sharing Possessions, Acts 4:32-35. There was the greatest unity of feeling and purpose in the early Christian Church; as the proverbial expression has it, they were of one heart and one soul.

Settled on the northwestern shore of the Dead Sea, and living in scattered communities throughout Palestine at this time, were the Essenes, a sect that literally had all things common. Each one deposited whatever he possessed in the general treasury, of which several managers took charge, supplying from it the needs of all. In Egypt there was a Jewish sect called the Therapeutae whose members gave away all their possessions when they joined the order, and broue the amount received to the apostles for them to distribute.

"Laid them at the apostles' feet" is a figurative expression who doubtless arose from the Oriental custom of laying gifts at the feet of kings; it meant that the money was left in the apostles' control.

It is interesting to recall here what Aristotle wrote to the Emperor Hecatan to the Christians of those days: "They rescue the orphan from the hands of his violent father, and who has given to him who has not, without grudging. And if there is a needy man who is poor and needy and they have not abundance of necessities, they fast two or three days they may supply the needy with their necessary food."

Sharing Responsibilities, Acts 6:1-7. The last verse of Chapter V, tells us that the disciples ceased not to teach and to preach Jesus as he said, now we learn that the result of the multiplying of the number of Christ's followers.

The apostles called a public meeting of the church and put the matter before it. It was not right, they told the assembly, to make them neglect their work of preaching to look after the distribution of food to the needy.

As for the apostles, they were chosen, men of good report, full of the Spirit and of wisdom, who should be appointed for that work. As Chrysostom observes, "It needed great philosophy to hear the complaints of the widows. From the Greek word 'diakonein,' translated 'serve' (serve tables, verse 3), comes our word 'deacon' and it is generally thought that from this choice of the Seven for a special service the word later sprang. In Phil. 1:1, Paul refers to deacons, and in 1 Tim. 3:8-13, he notes the qualifications necessary for this office.

As for the apostles, their time would then be free to continue stand-

fastly in prayer and carry on their work of preaching and teaching. The secret life of prayer alone prepares and qualifies for the public life of ministry."—J. Stuart Holden. "Rivers of vitality have their rise in souls that are on their knees before God."—J. H. Jowett.

## New Senators Appointed

Patrick Burns, of Calgary, Alberta, Named a Member of Upper Chamber

Patrick Burns, of Calgary, Alberta, well-known cattle man, has been appointed to the senate. Arthur Macpherson, K.C., Pontiac, Sask., has also been named a member of the Upper Chamber. Official announcement to this effect was made recently.

The new appointee from Alberta will succeed the late Senator P. E. Lesard, Edmonton, who died in April last. Saskatchewan's new senator will fill the vacancy caused by the death of Hon. J. G. Turfitt last fall.

The party standing in the senate will now be: Conservatives, 47; Liberals, 48.

One more vacancy exists in the Upper Chamber at present due to the death, slightly more than two months ago, of Senator G. G. Foster, Montreal. When this vacancy is filled, Conservatives and Liberals will have equal representation.

## Keeps Editors In Order

Unique Gavel Used By President At C.W.N.A. Convention

One of the most important items in evidence at the Canadian Weekly Newspapers' Association Convention in Regina, Saskatchewan, in the gavel used by President Malcolm Macleod to keep the editors in order. It is made from the wood of old Fort Malden, vintage about 1800 A.D., and is reminiscent of General Isaac Brock and Tecumseh, the famous Indian chief.

This gavel was presented to the association in 1930 by the Lake Erie and St. Clair Pulp Millers' Association. At that time Hugh Savage, of Duncan, B.C., was president of the association, so the gavel was handed to him with the words, "From one savage to another."

The gavel is suitably decorated with a silver plate setting forth its antiquity and usages.

## Introduced Amendment To Companies' Act

Bill Aims To Aid Employees In Purchasing Homes

Amending the Companies Act so as to enable a company to make loans to its employees for the purpose of purchasing or building their own homes, even when such employees are shareholders of the company, Hon. C. H. Cahan, secretary of state, introduced a bill into the House of Commons. The bill received first reading.

The amending bill also permits the auditor of a company to be a director, when such company's bonds and shares are not offered for public subscription.

Aluminium is extensively used in making very small automobiles in order to lessen weight.

## Another Notable Flight

Captain Hawks Makes Remarkable Time In Eastern Canada Hop

Quebec, Montreal, Toronto and Ottawa have been drawn closer together by a series of sensational flying performances of Captain Frank M. Hawks, famous United States speed pilot.

Montreal is no more than 32 minutes from Ottawa; 48 minutes from Quebec, and 108 minutes from Toronto, while the capital and Toronto are only 70 minutes apart. These were the times taken by Hawks and his monoplane in a flight from Quebec to Montreal, then on to Toronto, and back to Montreal via Ottawa. Several of these times were better than new records.

Hawks flew from Quebec to Montreal where he enjoyed breakfast, Ottawa as guest of Hon. Harold took luncheon in Toronto, tea in and was back in Montreal to be Macleod, United States minister, guest of the Montreal Light Aeroplane Club at dinner.

Altogether Captain Hawks was in the air four hours, 18 minutes and during that time covered an air distance of approximately 850 miles, averaging 197.4 miles per hour. The achievement rivals in some measure the notable recent flight of Captain Hawks from Paris to London, on to Berlin and back to Paris in a single day; also the flight that took him from London to Rome and back in a single day.

## Research Grants

Westerners Receive Aid Under Banting Research Foundation

Among the scientists who have been awarded long-term grants for medical research, by the trustees of the Banting Research Foundation, is Samuel Weinstein, University of Saskatchewan.

Prof. F. D. White, P. G. Mar, and Dr. R. H. Fraser, all of University of Manitoba, were awarded short-term grants.

Professor White is the assistant professor of bio-chemistry at the Medical College, Peter Mar has completed his second year in medicine, and Dr. Fraser is the lecturer in physiology and pharmacology. The research work which is being done by them covers the present summer only, and was begun shortly after the closing of the winter term at the medical college. Peter Mar is a graduate in science of the university, and has this qualification for research work.

### Onion Diet For Sheep

Sheep flocks on Colorado's western slope have been put on an onion diet to reduce last year's surplus. F. D. Warren, warehouse owner, said hundreds of sacks of onions have been given sheep owners, as there has been no market for them.

Standing on a concrete floor while using an electric iron is dangerous, for a shock may be transmitted if the concrete is damp.

# Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

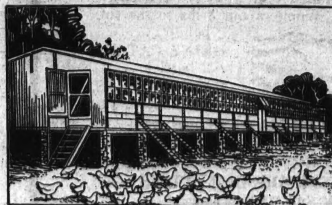

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

USE  
WINDOLITE  
IN  
BROODER  
HOUSES  
LAYING PENS  
DAIRY BARN  
SUNROOMS  
ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

"I do, Uncle Sim. I want Mr. Halliday to come. Tell him to come now."

"Well," said Simson, relievedly, "I'll do him good to talk. He don't look well."

"You're very good to see me," said Halliday. He had drawn a chair close beside Gay's hammock, and had taken her hand, and was looking at her with a kindly smile.

"But really, there's a good deal to say. Do you mind if I do most of the talking?"

And added almost savagely: "I'll tell you, husband, Gay, I'll never stop loving you, but I'll never love any other word of him at least. Good-bye. No, don't get up. I like to think of you lying there in the starlight." He bent over her, gave her his hands, and said, "I kiss them. I'll say I shall never ask."

When he had gone, across the front grant garden, it came to Gay with sudden sense that she had not known he had spoken of his wife.

"It's the propeller shaft—broken—we—"

Famous for wheat, butter and honey, Manitoba is also becoming a gold producer of considerable importance, the present output being estimated at the rate of \$2,500,000.

The hours of hurricane that followed Nick's sudden waking were a nightmare that he could never remember without a shudder. It was evident that if the Sea Bird sank, no lifeboat could live in such a sea, and there was nothing to do but await with fortitude the fate that seem imminent. The storm had broken so suddenly and with such violence, that at almost the first blast their wireless had gone by the board. They could only put for the open sea, an attempt to land on the nearest island being an impossibility in the dark and storm.

CHAPTER XXIII.

The hours of hurricane that followed Nick's sudden waking were a nightmare that he could never remember without a shudder. It was evident that if the Sea Bird sank, no lifeboat could live in such a sea, and there was nothing to do but await with fortitude the fate that seem imminent. The storm had broken so suddenly and with such violence, that almost the first blast they wireless had gone by the board. They could only put for the open sea, an attempt to land on the nearest island being an impossibility in the dark and storm.

**"TRADER HORN" COMING  
TO COLE'S THEATRE**

The most famous of all adventures comes to Cole's theatre, Bellevue, this week end, in "Trader Horn."

In bringing "Trader Horn," popular story of African adventure, to the talking screen, Mr. R. G. Lloyd-Mayer recruited what is said to have been the biggest photoplay expedition ever to penetrate Africa to film a narrative motion picture.

In the first place, more than eighty tons of equipment had to be moved through a territory that was at times almost impenetrable. The camera adventurers took with them a complete miniature studio, with every facility for housing and feeding the troupe, and the most up-to-date sound recording apparatus.

Among the accessories carried by the Van Dyke party into the heart of Africa were a nine-ton portable generator truck, an iceless refrigerator, a complete wireless and radio outfit, and more than several thousand individual items that ranged from chicken wire and cosmetics to insect exterminator. Members of the expedition were inoculated against fever and sleeping sickness before starting from Mombasa inland toward Nairobi, and a British staff physician accompanied the party.

When the "Trader Horn" brigade had reached Nairobi and set up camp there to make camera consequences, the adventure had barely begun. Diplomatic negotiations with government officials—Belgian, English, French—had to be completed.

Interpreters, native boys, hunters and divers had to be obtained and further preparations made to protect the health and well-being of the travellers. Travel had been comparatively easy so far, but now it was necessary to discard the railroad in favor of ox-teams and native wagons, boats and foot trails.

Director Van Dyke, who made both "The Pagan" and "White Shadows in the South Seas" in the south Pacific, was familiar with some of the discomforts and dangers of the tropics, but none that he had experienced compared with those prevailing in east-central Africa.

From Nairobi and the shores of beautiful Lake Victoria, the "Trader Horn" adventurers struck out for the dangerous fastnesses of Tanganyika Territory, with its bizarre pagant of wild animals. From there the itinerary called for trips to the wildest parts of the Uganda country and to the heart of the Belgian Congo, with its famous tribes of African pygmies. Hundreds of thousands of feet of motion picture sound film were brought back from the jungles of Africa. In battling the menace of fever, tropical storms and wild beasts, the cinema squadron always placed the safety of its celluloid cargo ahead of everything else. Camped near the Uganda Falls one night, a terrific storm broke loose and the flood that followed swept away many of the supplies of the camp.

Everyone made a simultaneous rush for the stored motion picture film, and even though some personal baggage was lost in the river, not a single can of movie film was destroyed.

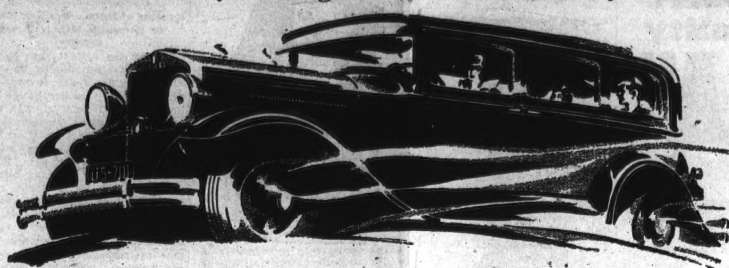

The picture follows the widely-read narrative of African wilds by Ethelred Lewis and Aloysius Horn to its most exciting and unusual details. Its amazing close-ups of lion fights to the death, of the desperate and futile attempt of a native to escape the jaws of vicious crocodiles, of the narrow escape of Miss Booth, the heroine, from being choked to death by a giant reptile, and numerous other breath-taking episodes bring a new thrill to the talking screen.

The entire trip covered more than 25,000 miles, much of which was covered by motor or on foot in dense jungles.

Thursday, Friday and Saturday, at Cole's Theatre.

"My dear, don't you ever nurse your darling little boy?"

Modern Mother: "No, it's so difficult; always afraid of my cigarette ashes falling in his eyes."

BLAIRMORE, ALBERTA

**CORBIN HAPPENINGS**

Mr. and Mrs. Taylor and family left on Friday for Vancouver, where they plan spending their holidays.

E. Linville, of the Crows' Nest Pass Motors, Blaimore, was in town on Tuesday.

Mrs. H. Jorgenson entertained at several tables of bridge on Wednesday, in honor of Mrs. W. Rowan, of Calgary, who is at present Mrs. Jorgenson's guest.

Mr. and Mrs. F. Winters and children left Wednesday for a brief holiday trip by motor to the coast.

D. McVannell, who is associated with the Trites-Wood Co., Fernie, is acting as relieving manager at the Flathead Trading Co.

The Corbin football team took a two-goal lead over Fernie in the first fifteen minutes in the game during the week end, but were unable to hold their advantage and Fernie won out 3-2. Teams comprised: Fernie—Wasson, Corrigan, Martin, Dougherty,

Stuart, George, Atherton, Sweeney, Coughlan, Glover and Dicken. Corbin—Cosha, McDonald, G. Oakley, W. Elms, A. McVey, W. Payne, Dawson, Hibbert, Fleming, Queen and J. Oakley. T. Mansell acted as referee.

Mr. and Mrs. F. Roberts and eldest son, Billy, motored to Calgary to take in the Stampede.

Mrs. Walter Sykes was a Calgary visitor last week.

Steve Katchalaba and party motored to Calgary during the week. Misses Annie Hoffman and Mabel Knight visited Calgary for the Stampede.

Mrs. M. A. Murphy, Mr. D. Murphy and Miss Sylvia Murphy, of Cowley, were week end guests of Mr. and Mrs. Lionel Peel here.

Friends of Mrs. T. Mansell will be sorry to hear that she has entered hospital at Cranbrook to undergo an operation.

S. Knight, who has been visiting at the coast for several weeks, returned to town last Wednesday.

Miss Edith Murphy, of Cowley, is visiting here with her sister, Mrs. L. Peel.

July has brought no change for warmer weather, as hoped for here. We have had alternate showers and sunshine for the past three weeks. The Corbin highway has suffered some by the daily precipitation, in so much as it is fairly rough for travel.

Mr. and Mrs. A. Cartledge and Mr. and Mrs. T. Collins visited Calgary for the Stampede.

Walter Oakley and B. Corlett journeyed north for the Calgary Stampede.

Mrs. M. Joyce and son Jimmy, of Coleman, were visitors here on Monday.

Quite a number from Corbin attended the Elks' carnival at Blaimore.

Col. Courtlandt Starnes, head of the Royal Canadian Mounted Police, has retired, to be succeeded by Major-General J. H. MacBrien.

**EVIDENCE OF BIBLE MIRACLE**

Word comes from Palestine that material evidence lately discovered has verified the physical truth of miracles.

Professor Garstang, of the Jericho expedition, reports that the collapse of the walls of Jericho before the Jews under Joshua was due to an earthquake. He bases his theory on the discovery that the walls of the city fell outward in a manner suggesting seismic disturbances.

The same thing accounts for the drying up of the Jordan for the Jews to cross. The clay banks of the river caved in near El Daniehl at about the time described in the Bible.

A big baseball feature will be staged on the Blaimore athletic stadium grounds on Monday evening next, when Picture Butte will oppose the Blaimore All-Stars. A bang-up game is promised, commencing at 6.15 p.m.

Mr. and Mrs. J. L. McKay and family, of Great Falls, Montana, are spending their vacation here with Mr. McKay's father, Mr. D. R. McKay.

There will be a special meeting of Oddfellows' Encampment in the local lodge hall tomorrow night at 8 o'clock. Present will be W. Micky, grand patriarch, of Medicine Hat; Dave Wilson, grand scribe, Edmonton; R. B. Morden, past grand patriarch, Lethbridge; Murray Saunders, past grand patriarch, Calgary; W. Taylor, grand guardian, and local district members. A full attendance is urged.

Horace L. Seymour, of the provincial parks commission and director of town planning, Edmonton, recently conferred with Coleman town council and board of trade regarding proposed site at Crows' Nest Lake suggested for development as a provincial park. The land is at present jointly leased by the towns of Blaimore and Coleman, but Mayor J. Moores, of Coleman, has suggested that it be turned back to the province in order that it follow its own plans as to development by the parks commission.

A couple of Reds from Calgary held a meeting in the Italian Hall, Fernie Annex, on Sunday evening. They are endeavoring to form a branch of the Unity League, a communist organization with headquarters in Moscow. Another meeting with a coast agitator spouting his lungs out was held last evening. These birds of prey are always very much in evidence in hard times, when they do all in their power to augment the feeling of unrest which prevails at those times. The Dominion Government is seriously considering a general deportation of these paid Moscow agents who are growing bolder in the larger cities.—Fernie Free Press.

## Lessons Of The Depression

During periods of depression such as the world is at present experiencing the almost universal tendency is to look upon the gloomy side of things to the exclusion of everything that is hopeful and encouraging. As a result there has been a plethora of dire forebodings, headshakings, and pessimistic utterances, accompanied by an arid scarcity of optimism and hopefulness. People generally can see, and seeing things continually dwell upon, the darkness, the losses, everything that is bad in the present situation, but it is rare indeed to discover any one who finds something good, or prophetic of future good, arising out of existing conditions.

Yet nothing is wholly bad and there may, and often does, develop out of the most adverse circumstances some of the best and finest things of life.

We have observed, for example, a larger sympathy on the part of the average person for their less fortunate fellow-citizens than has been noticeable for a long time. Fewer people are inclined to turn a deaf ear to stories of distress or to appeals for help. The man out of work is not, as a rule, ruthlessly turned away but is received kindly and sympathetically even though it may not be possible to do much or anything for him. Thousands who have little to spare are nevertheless dividing that little with those who have nothing. There is, we believe, less hardness and more sympathy in our relations one with another as a result of an appreciation of existing conditions and problems. The development of such a feeling is so much gain.

It is also true, or at least we are inclined so to believe, that many people are beginning to realize the true inwardness of life—that work, about which in times past they have been inclined to grumble and regard with distaste and as something they would like to avoid, is after all, one of the greatest blessings conferred upon man by the all-wise Creator of the universe. Today, employment, the opportunity to work, is regarded by nearly everybody as one of the greatest boons they can obtain. Idleness is not a luxury, is not to be desired; it is a heartbreak, a calamity. The impelling necessity to work has been found to be not a hard taskmaster, but a kindly benefactor. "The hardest work of all is not to be able to work."

Another much needed lesson which some of us are learning is how puny mere man is after all. In days of prosperity and mighty mechanical achievement and progress, there was a growing inclination to regard ourselves as self-sufficient, as supermen, boastful and vain. And this individualistic self-sufficiency was reflected in national self-sufficiency. We could live unto ourselves alone, as least so we thought, under our own vine, and disregar the rest of the world. But we have discovered we are not supermen, nor gods. The rains cease to fall, blighting winds blow and intense heat prevails, and mere man finds himself helpless. He can do nothing. His accumulated savings are soon eaten up. He is in distress, and his condition of distress reacts upon other people and nations thousands of miles away, just as their difficulties and losses react upon him. One suffers; all suffer. Mankind is a brotherhood, and there is one ruling Power over all. These are truths which cannot be denied or ignored.

## Prodigy Finishes Up At Adding Machine

Brooklyn Boy Slumps After Unusually Brilliant Start

This is the time of year when the college graduates go forth to conquer the world. And yet—William J. Sidis at the age of six months knew the alphabet. When he was but two years old he could read and write with ease, spell correctly and carry on an intelligent conversation. By the time he was four he had mastered four languages. At six years of age he completed an entire eight-year grammar school course in six months, and two years later he was graduated from the Brooklyn High School after completing the four-year course in half a year. Entering Harvard University at the age of 11, he was graduated with honors four years later. Sidis then took post-graduate work and became a teacher of mathematics. This boy wonder—says John Hix, in his Strand As It Seems Illustrations—was discovered five years later running an adding machine in a New York store.

### Reduction In Colds

A ten per cent. reduction in frequency of colds among a group of 14 Cornell women students is the latest record of using scientific knowledge. Seventy-five Cornell men taking the same treatment showed a reduction of 42 per cent. The cold protection in ultra-violet light, alkali, diet, ventilation and sleep.

## Could Not Check the Summer Complaint

### A Few Doses Did It

Mrs. B. Coulter, 1115-11th Ave. E., Calgary, Alta., writes: "Last summer my youngest son was bed with summer complaint, and everything he ate he would vomit, and he got so this I became very anxious to determine the cause. I checked, and I went to the drugstore and he gave me a bottle of Dr. Fowler's Extract of Wild Strawberry and told me it would stop the trouble if anything would. After I had given the boy the first few doses I noticed the discharges were being checked, and in was not long before he was well again."

## Drought Decimates Ducks

Dry Year Takes Heavy Toll Of Young Broods

The death rate among young wild ducks in Saskatchewan this year, owing to the drought, has been extremely heavy, was the opinion expressed recently at a special meeting called between members of the Saskatchewan Fish and Game Protective Association, Arthur Etter, game guardian, of Saskatchewan, and Dr. W. B. Bell, of the Bureau of Biological Survey, Washington, D.C.

The extreme seriousness of the situation could not be stressed too much, was the unanimous opinion, and the sportsmen want the shooting season greatly curtailed if the United States will do likewise.

Dr. Bell said he had come to Saskatchewan because of the alarming reports received by his department. The department had not been sure that the reports had not been exaggerated and had decided to investigate for itself. "And I can assure you," declared Dr. Bell, "the reports have not been exaggerated. Mr. Etter and I have just finished a 500-mile trip and have counted exactly 400 ducks and of this number only 24 were young ones. On one lake we counted 320 ducks and there were no young ones amongst them. We believe that the adult ducks had gathered after their broods on a number of small sloughs had died owing to the drought."

Mr. Etter stressed that the trip had been a very thorough one from the duck investigation standpoint. At every point touched very full enquiries had been made among sportsmen and farmers and they had declared that the death rate had been extremely heavy. It was doubtful if one per cent of the young duck population, a great portion of the province had survived the drought.

## Canadian Mines Pay Dividends

Several British Columbia Companies Distribute Substantial Sums

All mines are not just holes in the ground into which suckers drop their money. Despite talk of hard times and low-priced metal markets, Canadian mines are still paying steady dividends.

Several British Columbia companies are to pay out their usual quarterly dividends. Some of them amount to quite substantial sums.

Pioneer Gold will pay out over \$52,000.

Hove Sound (which operates the Britannia Mine) will pay out \$240,000.

Consolidated Mining and Smelting (which operates the Sullivan Mine and the Trail-Smelter) will pay out \$630,000.

Mr. Donald Mann tells us of declining to buy the Sullivan when it was offered to him by the original top-headed Sullivan for \$12,000. Since then it has had spells of good luck when lead and zinc were high, when it made \$60,000 a day.

The day may not be very far distant when the great pre-Cambrian shield which blankets northern Saskatchewan, will be supporting big mines and paying out millions in quarterly dividends.—Regina Daily Star.

## All Night With Asthma. Everyone

knows how attacks of asthma often keep their victims awake the night long. Morning finds him wholly unfit for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

## Bible Weighs Half A Ton

Los Angeles Carpenter Has Completed Largest Copy In World

For two years Louis Wayne, a Los Angeles carpenter, has been working day and night to make the largest Bible in the world. Now he has completed his task. Using a hand-stamping machine, Wayne stamped on to the 387 pages of his giant book every single letter, symbol, and punctuation mark, taking his family Bible as a pattern. The book contains 8,048 pages and weighs 1,094 pounds, and it spreads to a width of eight feet and two inches.

## Made Poor Guess

"The place will never amount to a hill of beans." This was the prediction of Sergeant Joseph Herbert 65 years ago to Winnipeg's future. He gave away the land, the Crown granted him, and marched east with the Royal Canadian Rifles when that regiment was recalled to Halifax. Recently a son of the sergeant of Red River days visited the city. The parcel of land his father gave away is now the site of the City Hall.

Fuel alcohol is made from pineapple waste in a plant near Honolulu, H.I.

W. N. U. 1928

## Weekly Newspaper Association

S. J. Dornan, of Alameda, Is Elected President for Coming Year

S. J. Dornan, Alameda, Sask., becomes the president of the Canadian Weekly Newspaper association for the ensuing year, as the result of the election of officers, held in the Hotel Saskatchewan, Regina, at the recent convention. As a consequence, Malcolm Graham, reeling president, becomes past president; A. W. Marsh, Amherstburg, first vice-president, and E. Roy Sales is re-elected to the position of managing-director.

Directors elected were: Maritimes—H. S. Andrus, Windsor; H. B. Anslow, Campbellton; Don Fraser, New Glasgow, Quebec—C. E. Labranche, Three Rivers; Adam Sellar, Huntington; P. E. Rioux, Drummondville; Ontario—J. A. MacLaren, Barrie; Lorne Eddy, St. Mary's; D. Williams, Collingwood; G. Lake, Timmins; Col. A. Macdonald, Alexandria; C. Chanters, Brampton; Elgin Harris, Burlington; R. Lancaster, M.L.A., Havelock; Manitoba—J. Corrie, Carberry; L. J. Bennett, Carman. Saskatchewan—Cameron McIntosh, M.P., North Battleford; S. N. Wynn, Yorkton; Donald Dunbar, Estevan; S. R. Moore, Swift Current. Alberta—Fred Turnbull, Lethbridge; Herb. McCrean, Hanna. British Columbia—C. A. Barber, Chilliwack; Ralph White, Kimsopos.

Concluding exercises of the convention were marked by resolutions of thanks to the city, the railway companies and the public entities that contributed towards "one of the finest conventions in the history of the association."

## Recipes For This Week

(By Betty Barclay)

### SPANISH SALAD

(Serves 6.)

2 large tomatoes.  
2 green peppers.  
2 stalks of celery.  
1 tablespoon minced onion.  
Cut each tomato into 3 slices. Take seeds from green peppers and cut each one into 3 rings. Peel oranges and cut in small pieces. On each salad plate arrange tomato slice topped with pepper rings, and orange with orange. Add minced onion to French dressing. Pour over salad.

### MEAT PIES WITH RICE

Four cups cooked rice, 1 onion, 2 cups tomatoes, ½ teaspoon salt, ¼ teaspoon pepper, 1 cup onion, 1 pound raw meat or left-over meat suit up small. Melt the fat, add the sliced onion, and if raw meat is used, add and stir until the red color disappears. Add the tomato and seasoning after the onion is browned, and heat through. Grease a baking dish, put in a layer of rice, add the meat and gravy and cover with the rice dotted with fat. Bake for half an hour.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring your child to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and impairing a healthy tone to the system most beneficial to development.

### Believes Amundsen Is Alive

General Umberto Noble, Italian explorer, who commanded the dirigible, Italia, was aboard the Russian ice-breaker, "Maligna," when she sailed for Archangel, July 15, for an expedition into the far north. He hopes that he may find Roald Amundsen, and the men of the Italia expedition.

### An Accomplished Linguist

Lieut.-Gen. Sir W. Edmund Ross, who has just been appointed Westerner of the Forces of London, can speak at least a dozen Oriental languages. He is six feet four inches tall, and was commander-in-chief of the Allied Forces in Archangel, Russia, in 1918-1919.

## Fastest Atlantic Crossing

Empress of Britain Sets New Record In Mercantile Marine of Any Country

Making the fastest trans-Atlantic crossing ever recorded by the mercantile marine of any country, the new 42,500 ton Canadian Pacific liner Empress of Britain at 3:15 a.m. Monday, crossed the equator, the Blue Ribband of the Atlantic for British shipping. Establishing a new world's record of four days, twelve hours and thirty minutes between Cherbourg and Father Point, mails were landed and the pilot taken on in four hours and twenty-six minutes better time than the previous record of four days, seventeen hours and six minutes made between Cherbourg and Ambrose Light where pilots are taken aboard New York bound ships. The Canadian Pacific now holds the Blue Ribband on both the Atlantic and the Pacific oceans, the Empress of Japan holding the record for the run from Vancouver to Yokohama.

## B.C. Timber Resources

Industry Gives Steady Employment To 45,000 Men

Average annual revenue received by the Crown from forest resources in British Columbia during the past ten years, according to an official report, has been in excess of \$3,725,000; average value of materials produced has been more than \$50,000,000, and during this time the industry has given steady employment to about 45,000 men.

It is estimated that there are at present in British Columbia commercial stands of timber covering about 16,900,000 acres. Of the more important commercial species the amount of timber accessible for immediate future use is approximately as follows: Douglas Fir, 54,000,000 board feet; Western Hemlock, 61,000,000 board feet; Western Red Cedar, 60,000,000 board feet; Spruce, 70,000,000 board feet.

## Use Empire Timber

London County Council Favors Use Of Home-Grown Article

The use of home-grown or empire timber only in the manufacture of furniture for the London County Council, provided supplies of such timber of suitable quality are obtainable at reasonable prices was recommended by the council's general purposes committee which has been studying the question of policy regarding the use of empire timber for the council's requirements.

The Canadian Chamber of Commerce in Great Britain has forwarded a resolution appreciating the decision to the council.

Douglas' Egyptian Liniment always quickly, always certain. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning. Splendid for muscular rheumatism.

The reason so many people miss the road to happiness is because when they come to it it looks so much like a detour they take the better-looking side.

Science is still trying to find out when and where farming was first attempted in ancient America.

## UNIVERSITY OF MANITOBA

WINNIPEG

Offers, among others, the following Courses:  
Through its FACULTY OF ARTS AND SCIENCES, the University confers the degrees of B.A. and M.A. and B.Sc. Through its FACULTY OF ENGINEERING, it confers the degrees of B.Sc. (Eng.), B.Eng. (1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 969th, 970th, 971st, 972nd, 973rd, 974th, 975th, 976th, 977th, 978th, 979th, 980th, 981st, 982nd, 983rd, 984th, 985th, 986th, 987th, 988th, 989th, 990th, 991st, 992nd, 993rd, 994th, 995th

## CARRY-OVER MENACE IS SEEN BY GRAIN TRADE

Ottawa, Ont.—Opinions of two elements most vitally concerned with the marketing of Canadian wheat were presented to the House of Commons committee of agriculture here, when James Richardson, of Winnipeg, Man., and Andrew Cairns, of Winnipeg, gave evidence on behalf of the grain trade and the wheat pool respectively. The committee has been vested with the task of enquiring into the better marketing of farm products.

General world conditions were canvassed and a variety of reasons assigned to the present depressed state of wheat markets. The presence of a 200,000,000-bushel carry-over on the North American continent this year was a factor which combined to threaten the situation, Mr. Richardson declared, and to this would be added a surplus estimated for the present year among the wheat-growing countries of another 200,000,000. In spite of this, however, Mr. Richardson was optimistic for the future.

"Our main problems today are economic," Mr. Richardson said, "but the policy of this continent during the last few years has accentuated our difficulties. We cannot escape the penalty of having allowed an undue surplus to accumulate on this continent."

Mr. Richardson was opposed to the establishment of a wheat board, whose powers would include the fixing and regulating of prices. He did not think that a bonus of five cents a bushel was a bad thing for the farmers.

Australia's position in the Orient had been secured through the Commonwealth's depreciated currency, he told the committee, and agreed that if Canada depreciated the currency of this Dominion it would enable the farmer to sell more, to get more of that currency for his produce and enable him, at least, to pay his debts.

Mr. Cairns predicted a national catastrophe if there should be any flooding of the market this year with the current year's crop. A break of 10 or 12 cents in the fall would be calamitous. Speculative marketing being dead, someone would have to assume the responsibility of hedging the crop until it could be directed into constructive channels.

He had found no resentment in Europe against the policy of the Canadian wheat pool, nor did he ascribe the desire of the European countries to be self-supporting to any such resentment. Rather it was a lesson taught them by the war that they should be self-supporting.

Mr. Cairns could not see much hope in the immediate future, although there were remote indications of things becoming brighter.

## Lindbergh To Visit Canada

Plans To Stop At Ottawa On Way To The Orient

New York—Colonel Charles A. Lindbergh has stated that he and Mrs. Lindbergh planned to stop at Ottawa and some other Canadian points on their way to the Orient, but he had no plans for touring Canada preceding the visit to the Far East.

Stops will be made at Royal Canadian Mounted Police Stations in north-western Canada for fuel, but, aside from Ottawa, no Canadian cities will be visited, he said.

The day for the Ottawa visit is uncertain, Colonel Lindbergh said. It would be better known late this month or in August.

## Trade With U.S.

Domino Leads the World In Trade With Southern Neighbor

Washington—Canada led the world in trade with the United States during May, both in imports and exports, the United States Department of Commerce announced Thursday. The Dominion took \$14,600,871 of United States goods and shipped to the United States \$24,109,517. This compares with \$69,745,470 of goods shipped to Canada in May, 1930, and \$37,396,573 of imports from Canada.

Total United States exports were \$23,527,306 in excess of imports.

## Assist Unemployed

Victoria, B.C.—Pending the commencement of unemployment relief works on a large scale in British Columbia, the provincial government has instructed government agents and provincial police in all outlying districts to give all persons who need food credit of 40 cents a day at local stores. The allowance will apply to women as well as men.

W. N. U. 1930

## Approve Tariff Board

Term Of Office Is Fixed For a Period Of Ten Years

Ottawa, Ont.—After a rough passage and much buffeting, the government bill providing for the appointment of a tariff board finally passed the committee stage in the House of Commons. It now stands for third reading, which, in the majority of cases, is merely a formality. It is possible that members of the Liberal opposition will seize the opportunity offered by the motion for third reading to voice briefly once again the many objections which they have developed. Discussion, however, must now be limited.

The bill, in brief, provides for the appointment of a board of three members, of which one is to be chairman, with the powers of a court of record. Its function, as indicated by the prime minister, will be to "find facts" upon which tariff duties may be based. It will endeavor to determine the cost of production of goods in foreign countries, the cost of producing similar commodities in Canada, and the rates of duties necessary to equalize costs. Its findings shall be reported to the Minister of Finance.

Salaries are placed at \$12,000 for the chairman and \$10,000 for each member of the board, and the term of office is fixed at ten years. In addition to its purely tariff activities, the board is empowered to perform certain functions under the Combines Investigation Act. It also assumes the duties now attaching to the board of customs.

## Medals For Bravery

Four Young Brazilians Receive Recognition From Royal Canadian Humane Society

Hamilton, Ont.—Bronze medals "for bravery" have been awarded to four young men of Rio de Janeiro, Brazil, by the Royal Canadian Humane Society.

The four, cited for their heroism March 27, 1931, in rescuing three North American visitors from drowning at Copacabana Beach, are Archibald Pinto Amado, Jorge Pinto Amado, Edilio Lima Coelho and Roberto Dabellia.

The rescue occurred at the beach when three members of the Canadian trade mission to Brazil, and a friend from the United States, went swimming there. They were cast out from shore by the heavy surf and the undertow, when the young Brazilians went to their assistance.

One of the men rescued, C. E. Mackay, London, Ont., failed to respond to attempts at resuscitation, but the three others, Arthur W. White, London; Thomas H. Ramsey, Edmonton; and W. F. Routh, United States friend of the party, survived.

## Must Keep Expenses Down

Germany Has Been Warned To Practice High Economy

Berlin, Germany.—The German Government pledged its word that the money made available by the Hoover debt plan will be used solely for the purpose of bringing about consolidation of the nation's finances. "Whatever alleviation the credit and money market receives, must rebound to the benefit of Germany's business and economy," the government said in a formal proclamation.

The nation was warned in the government statement that it must be unremitting in its efforts to economize. No increase in the expenditures of any government department will be tolerated. President Paul von Hindenburg sent a message to President Hoover, telling of the gratitude of the German people.

## Reduce Insurance Rates

Reduction On Shipping Via Hudson Bay Route Is Reported

Regina, Sask.—The British hull committee has agreed to reduce insurance rates on shipping via the Hudson Bay route from 4 per cent to 3½ per cent, on vessels valued at \$10 per ton according to official word from London, received by the Saskatchewan government.

This reduction was made contingent upon the operation by the government of ice breakers and direction finding equipment.

The committee also agrees to extend the sailing limit to October 7 of each year for a 10 per cent increase on the above rates, and to October 15 for a 25 per cent increase on the same rates.

## Treaty Delayed

Ottawa, Ont.—The new Canada-Australia trade agreement bearing the signatures of Australian representatives, has not yet reached Ottawa. At the request of the Australian government, arrangement has been made for simultaneous release in Canada and Australia.

## No Armaments

Germany Will Not Use Reparation Funds For War Purposes

Paris, France.—The German Government, through Ambassador Von Hoesch, gave Premier Laval, its solemn word that it would not use the funds realized by the reparations moratorium for building armaments. Ambassador Von Hoesch gave to the premier the text of Chancellor Brüning's statement of July 2, in which the chancellor assured the United States government that its moratorium benefits would be used for economic purposes.

After the interview, Premier Laval issued a statement in which he said that the German government made the move on its own initiative.

Paris began to prepare for the disarmament talks which it expects after the arrival here of United States Secretary of State Henry L. Stimson.

## National Relief Board

Social Service Council Of Canada Will Urge Formation

Toronto, Ont.—Appointment at once of a small national board or committee, composed of the best informed and most capable persons available, to plan, co-ordinate, and direct unemployment relief measures, is urged by the Social Service Council of Canada in a memorandum of resolutions passed by that body, to be submitted to Premier R. B. Bennett and Hon. Gideon Robertson, Minister of Labor.

Rev. Canon C. W. Vernon, of Toronto, president of the council, and Dr. J. Phillips Jones, general secretary, expect to go to Ottawa shortly to present the resolutions to the government.

## TAKE STEPS TO ENSURE SEED FOR DRIED-OUT AREAS

Ottawa, Ont.—The government has for some time had under consideration steps to ensure that the areas in the west facing short crops would not be denuded of the grain already in store there. The Saskatchewan wheat pool delegates in Regina decided to urge the government to purchase and retain all grain in the dried-out areas until the feed and seed requirements can be assured.

There need be no fear in this regard, Hon. Robert Weir, Minister of Agriculture, said in an interview recently. The areas referred to would be protected as to the removal of grain. The government had been giving the situation close consideration for some time.

## Trade Conditions In Britain Are Improving

Situation Better Than In States Says Sir Charles Gordon

Quebec, Que.—Noting an improvement generally in conditions in Great Britain, with a trade revival taking place, Sir Charles Gordon, president of the Bank of Montreal, has returned to Canada from a brief visit to Europe.

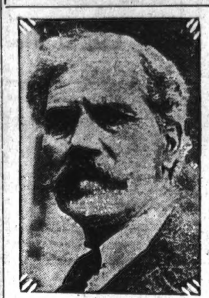

"I think that conditions in Great Britain are improving, trade generally experiencing a revival, and that conditions there aren't as bad as in the United States," said Sir Charles.

## DADDY DOES THE TRICK

In all the millions that followed the progress of Willy Post and Harold Gatty, who flew around the world in nine days, none were more intimately interested than the group presented above. Mrs. Harold Gatty, wife of the flier, with her children, Alar, five years old; Lindsay, three, and Ronald, who is nearly two, are five contented "Daddies" who got back home in "Wimble May" after the strenuous flight.

## PREMIER MACDONALD

Labor Government sustained when recalcitrant leftwingers who moved rejection of unemployment insurance amendment bill, were defeated by vote of 231 to 19.

## Looking For Advance

In Disarmament Plans

Move Is Seen As Example Of War Debts Moratorium

Washington.—Definite advance in world disarmament is expected by the administration as one important consequence of the war debts moratorium.

With the holiday in intergovernmental payments definitely assured and steps already taken to adjust remaining details President Hoover and his advisers made the forthcoming general disarmament conference their next diplomatic objective. Three times in as many months the chief executive has linked the increasing debt of nations, navies and armaments directly with the world's economic burdens.

The disarmament conference will be held at Geneva in February, 1932, under the auspices of the League of Nations. The United States will participate fully and officially.

## Conservatives Hold Seat

Win By Election In Ontario Riding By 156 Majority

Simcoe, Ont.—An unofficial summary of results in the Norfolk provincial by-election showed the Conservative candidate A. C. Burt, elected by a majority of 156 votes over a Liberal opponent, with the third candidate, an Independent, losing his deposit.

Unrevised final figures were: Dr. A. C. Burt, Conservative, 5,710; Eric W. Cross, Liberal, 5,554; A. C. Stewart, Independent, 272.

Both sides claimed victory before the complete and official figures could be checked. In the last general elections, Hon. John S. Martin, former member of the Ontario cabinet and a Conservative, had been elected with a majority of 1,403.

## Anglo-American Relations

Toronto, Ont.—Delegations of university professors and students from Great Britain and Canada have accepted the invitation of the Carnegie Foundation to discuss Anglo-American relations with a similar group from United States colleges at the University of Michigan from July 12 to 19. Stanley Rand will represent the University of Alberta and James A. Gibson, University of British Columbia.

## Had Easy Victory

Labor Government Triumphs Over Recalcitrant Leftwingers

London, England.—The government had an easy triumph in the House of Commons over recalcitrant leftwingers who moved the rejection of the unemployment insurance anomalies bill, which aims to remove some of the unsatisfactory features existing in unemployment insurance. The left wing, led by James Maxton, objected that the bill was wholly inadequate, but after some hours debate they failed to convince the House and the rejection motion was defeated 231 to 19.

The minority included the followers of Sir Oswald Mosley, who moved from the Labor side of the House to the opposition side. The Conservatives did not vote and several Laborites and Liberals also abstained.

## Communists Are Stirred

Say Deportations From Canada Will Not Close Victory

Winnipeg, Man.—Stirred by reports from Ottawa that Communists would be deported from Canada, leaders of the party in Winnipeg, declared such deportations would not cure the present unrest. Several believed it would stir up further trouble and aid in the spread of Communist doctrines.

W. N. Kollinsky, former alderman, and a leader of the Communists in Winnipeg, who has been a resident here for 33 years, declared he would "welcome deportations." Many workers, he added, would also welcome deportation, especially to the Soviet Union, where there is no unemployment.

## Manitoba Butter Takes Grand Championship

Exhibit From Dauphin Dairy Wins First Place At Calgary

Winnipeg, Man.—An exhibit of Manitoba butter, which scored 193 out of a possible 200 points, triumphed at the Calgary Exhibition, taking the grand championship and gold medal in creamery classes, according to advices received here, Tuesday, July 7. The championship exhibit was entered by the Manitoba Co-Operative Dairies, of Dauphin, Saskatchewan Co-Operative Creameries, Moose Jaw took second place, and Manitoba Co-Operative Dairies, Brandon, third.

## WOULD REDUCE EXPENDITURES ON NATIONAL LINES

Ottawa, Ont.—Reduction as far as possible in capital expenditures on present works and the consideration of the suggestion of Sir Henry Thornton that an outside commission of leading Canadians be appointed to consider the entire question of Canadian transportation are likely to be recommended by the special committee of the House of Commons on the Canadian National Railways report.

In parliamentary lobbies, it is also reported that the committee may suggest to the House of Commons the abandonment of sale of the Canadian Government Merchant Marine, the original cost of which was \$80,000,000 when purchased in the days of the Great War.

Another probability, it is understood, is a recommendation for considering the abandonment of the Canadian National steamship service between Vancouver, Seattle and Victoria.

Continuation of the West Indies service, combined with approval of a sum of \$755,000 for requirements respecting obligations under the treaty between the Dominion and the islands, will likely be proposed. The bill guaranteeing securities under the system's financing act of 1931, it is reported, will be approved by the committee. A sum of \$900,000 is required under the Maritime Freight Rates Act and approval of this sum is likely to be given.

It is understood the committee will consider recommending that the amounts Sir Henry Thornton receives in excess of \$75,000 per year salary should be published and that there should be no annuity of \$30,000 to Sir Henry after he leaves the system. Whether salaries of other officials may be made public is a matter upon which no information is available. Supporting statements of Dr. Peter McGibbon (Cons., Muskoka-Ontario) another recommendation may possibly be that club fees and club payments of high C.N.R. officials paid by the system amounting to a large deal should be made public.

The report has yet to receive final approval of the committee.

## TARIFF BOARD BILL IS APPROVED BY COMMONS

Ottawa, Ont.—The amendment of Rt. Hon. Mackenzie King moved on third reading of the bill to create a tariff board, was defeated in the House of Commons by 34 votes.

The vote stood: For the amendment, 51; against, 85. As soon as the result of the division was declared, Hon. Ernest Lapointe, former minister of justice, moved the six months' adjournment of the bill. This motion was declared lost without a registered vote.

The bill then received third reading.

Ottawa, Ont.—Liberal and Conservative leaders clashed once more on the old battleground of tariff principles. Asserting that the tariff policy of the government, as exemplified in changes of duty provided for in the budget, would bring about a condition of stagnation in Canada's trade, Rt. Hon. Mackenzie King, opposition leader, criticized the government proposals.

This was not a time for experiments warned the Liberal leader. The trend of the world today was in the direction of lower tariffs; high tariffs had been tried and found wanting, and nations were turning back to moderate duties.

Canada was confronted with an extremely grave situation, retorted Rt. Hon. R. B. Bennett, Prime Minister. Depressed conditions throughout the world were forcing nations to adopt extreme measures. Dumping of goods into an unprotected Canadian market might mean the extinction of industries of Canada engaged in the manufacture of those commodities. This the government proposed to prevent.

The House of Commons was engaged in consideration of the most contentious piece of legislation remaining on the order paper when Mr. Bennett and Mr. King spoke.

The customs tariff resolution, implementing approximately 200 changes in duties on imported goods, was under discussion. This resolution, the major impact of which was brought down in the budget, contains material for lengthy debate. The lateness of the session, however, may militate against long discussion.

The prime minister gave examples of the dumping practices which the government proposed to prohibit. A foreign manufacturer was attempting to introduce safety pins into the Canadian market. Consequently he sold a huge quantity of safety pins for five cents. By so doing he threatened the life of a Montreal industry, also manufacturing safety pins, and employing 50 Canadians. Should the government stand by and let the Canadian pins be destroyed, asked the prime minister.

The House, in committee of ways and means, finally got down to considering the various changes in duty provided for in the budget. The Australian treaty has not yet been brought down, and consequently a number of items affected by that pact are standing over.

The first tariff item taken up provides a duty of 20 cents per bushel under the existing tariff on Indian corn, under the general tariff the duty is 25 cents, while it comes in free under the British preference.

Hon. J. L. Ralston (Lib., Shelburne-Yamoucheau), led a series of protests against this import. In the Maritime Provinces alone, approximately 700,000 bushels of corn were imported each year for use as poultry feed. Col. Ralston was supported by opposition members from British Columbia, who claimed that the poultry raising industry there required corn.

## Sympathy From Britain

Expression Of Regret On Partial Crop Failure Held In British House Of Commons

London, England.—"I am sure the House will greatly regret to hear the present drought is expected to have a very serious effect on crop prospects in the prairie provinces of Canada," said Rt. Hon. J. H. Thomas, secretary for the Dominions, referring in the House of Commons to the causes and probable economic effects of the failure of a large portion of the Canadian wheat crop. "As to the position generally I can only refer to the statement made by the Prime Minister of Canada on July 1." Mr. Thomas continued. This was Mr. Bennett's review in the House of Commons of the serious situation confronting the people of a large section of Saskatchewan and of smaller sections of Alberta. Mr. Thomas, when he announced the Dominion government would take measures for relief.

## The Blu-Green Gasoline has arrived in Blaimore

Come and fill your tank and give it a trial. Contains no lead. You will find it the best anti-knock gas you ever used, and as full of power, pep and mileage, and we will sell it at 33 cents per gallon. Why pay more, and probably not get the same results? We still sell Imperial and British-American Gas and Oils, and 100% pure Pennsylvania Oil, known on this side of the border as "Pen-Artic Oil, sold by

## Local and General Items

The King Edward hotel at Creston was totally destroyed by fire last week.

We are asked to "put it in the paper" that Blaimore won at baseball last night, defeating Bellevue to the tune of 5 to 3.

We knew a man who hadn't done a tap of work for twenty years, and yet the local newspaper's report of his funeral was headed: "Laid To Rest."

The city of Drumheller is seriously considering adopting a by-law, whereby license fees can be collected from transport companies entering the municipality.

F. R. Keer, who has been employed at the Crows' Nest Pass Motors for the past three years, has severed his connection with the firm and accepted a position with the public works department at Macleod. We understand Mr. Keer, accompanied by his family, leaves immediately to take up his new duties.

SHACKS, one and two-room; also garage, for rent. Apply to The Enterprise.

EYES EXAMINED at Blaimore Pharmacy on Saturday, July 25th, E. J. ANDERSON, B.Sc., in attendance. [16-23.]

Dr. J. L. CHAPPELLE, chiropractor, will open an office in McLaren Block (over Blaimore Hardware) on or about July 20th.

The congregation of Upper Londonderry United church, Nova Scotia, recently celebrated their 100th anniversary.

Messrs. Halliwell, Devine, Cook and R. F. Barnes, of Coleman, comprised part of a town of twenty parties camped at the North Fork ford on Saturday night last.

Miss Madeleine Chardon arrived in London on Sunday last at noon and remains there for the week, before proceeding to points on the main land.

## WHO'S WHO

(By Gee)

### H. S. Fry

PUBLICITY is the special forte of Harold S. Fry, of Regina, chairman of the Publicity Committee of the World's Grain Exhibition and Conference.

He was born at Buffalo, N.Y., and holds a B.S.A. degree from the University of Toronto. For three years he was demonstrator in horticulture of the Ontario Agriculture College.

Mr. Fry entered journalistic work with the Canadian Countryman of Toronto, and has also been associate editor of the Farmer's Advocate and managing editor of the Western edition.

In 1927 Mr. Fry became associated with the Saskatchewan Co-operative Wheat Producers Limited, commonly known as the Wheat Pool. He is director of publicity for that organization and brings a lengthy and varied agricultural experience to bear upon the publicity work of the World's Grain Exhibition and Conference.

### Horace A. Craig

MR. CRAIG, the vice-chairman of the Alberta Committee of the World's Grain Exhibition and Conference, is Deputy Minister of Agriculture for Alberta.

Born at North Gower, Ontario, in 1882, Mr. Craig received his education in the public and high schools of that Province; at the Ontario Agricultural College and the University of Toronto. In 1906 he was awarded a B.S.A. degree.

From 1906 to 1911 Mr. Craig was superintendent of fairs and institutes for the Province of Alberta, and from 1911 to 1915 superintendent of provincial fairs. He was appointed to the position of Deputy Minister of Agriculture in 1915.

Mr. Craig is a member of the Canadian Society of Technical Agriculturists, as well as of numerous organizations interested in agricultural problems.

### James H. Evans

AS vice-chairman of the Manitoba Committee of the World's Grain Exhibition and Conference, James H. Evans, Deputy Minister of Agriculture for that province, brings to the undertaking of 1932 the advantages of a lengthy and varied agriculture experience.

Mr. Evans, who is a Welshman, graduated from the University of Wales at Aberystwyth, and after coming to Canada attended Manitoba Agricultural College at Winnipeg, obtaining a B.S.A. degree in 1912.

In 1916 he was appointed Deputy Minister of Agriculture and Immigration for Manitoba and an active member of a number of organizations in which the department is interested.

Mr. Evans is also a member of the Executive and Finance Committee of the World's Grain Exhibition and Conference.
